## CENTER CENTRAL

We are all ready for some beautiful Spring Weather! Most of the classes are growing flowers or grass and learning about wonderful Mother Nature! With the weather changing and kids growing, please make sure your child has weather appropriate extra clothes that are labeled in their cubby.

We would like to wish all of our families a very, happy blessed Easter! !

## KIDS FOR KIDS CAMPAIGN:

This month we are trying to teach the kids about the true meaning of Easter and how to forgive others and to always celebrate life! Preschool classes will be assigned a younger group and they will teach them about forgiveness and make up a little Easter basket to celebrate friendship!

# NURSERY & CLIMBERS

To get ready for Spring they are working on super cute hand and footprint paintings to hang up. They have finished the bunny rabbit with feet ears, and now they are working on yellow handprint stars! One of the favorite songs this month is "Twinkle Twinkle Little Star."

Miss Denise and Miss Sharon will be exploring the weather this month! They will talk about rain and do a rain cloud experiment with shaving cream, and they will also make rain sticks! They will be singing "Twinkle Twinkle Little Star" and learning about the star shape all month long!

# EXPLORERS & ADVENTURERS

The Explorers are learning all about Easter and The Weather all around us this month!

This month is full of Egg-tastic activities with the incredible egg! They will color Easter Eggs, decorate paper eggs, and make egg salad for snack! Last month they made green fruit salad for snack and the kids LOVED it! Miss Trinka also has a flannel board story "The Easter Basket Story" for the kids to get involved with!

Miss Trinka, Miss Emily, and Miss Maddie have been working hard and reorganizing the Explorers/Adventurers room. They are trying to teach the kids to play in centers!

Miss Emily will be teaching her little students all about plants and how the weather helps them grow! They will learn how to plant a flower and how to take care of it!

These songs get the kids a movin' and a groovin'!! "Little Bunny Foo Foo"  
"Here Comes Perter Cotton Tail"

# PRESCHOOL

Miss Lacy & Miss June will start the month off with teaching the kids about umbrellas and how they come in handy these rainy Spring days! During Evaluation week they do a lot of testing with the children's fine motor skills and compare them to when school first started! It is so fun to see how their writing has developed!

In April we will be learning a lot about the letters U and V. We are also having a whole week of Easter fun, and an Evaluation week where teachers are testing the preschoolers to see how much they have learned this year! This is always an exciting week because it's always amazing how much the kids have learned throughout the year! They are getting so smart!

Miss Miranda's class is ready for Spring!

They have flowers that are starting to grow, and grass that is getting taller everyday! They will need to "mow" it really soon! During Easter week the students will be doing a lot of matching games with Easter Eggs! They will have to find the matching egg with colors, letters, and shapes

Miss Linda's class has learned all the numbers, so now they are focusing on reviewing and the kids are practicing writing the numbers on their own!

They are also patiently waiting for letter V week so they can learn about vegetables and make vegetable soup!

Miss Mindy's class is upside down and under water! They are having a lot of fun during letter U week learning about the concept of under! They will be coloring under tables, and make themselves into scuba divers and go under the sea! They will also be reading the story "The Easter Bunny Assistant" and filling out applications to be the Easter Bunny Assistant! I wonder who will get the job?!

Miss Dawn's class will be exploring fingerprints during letter U week and figuring out "What makes us unique?" She also has an awesome volcano experiment during letter V week that the kids will get to help make the volcano and figure out the recipe to make it erupt!

Back in March Miss Carrie's class made friendship flowers and the students wrote on a classmates flower about why they are special to us! It was such a self esteem booster! They are also learning to read maps this month, especially the USA map!

# SCHOOL-AGE

This month the kids will be making Bunny Bait in hopes to catch the Easter Bunny! They are also going to add some Spring to the room with some butterflies they will be making and grass they will be planting! Julie found a new way to paint Easter Eggs so they will experiment with marble coloring!

One of the favorite activities after school is playing games, and it gets pretty competitive!
